

## Accessory Building Approval Request

Following are the five (5) standards which the Zoning Board of Appeals must use in considering your request for additional square footage or height, and a place for you to explain how you meet these standards. You may use additional sheets to answer in more detail, but you must answer all questions.

- 1) The area and/or height of the accessory building in relation to the size of the lot on which it is to be placed;

Describe how the size or height is not excessive in relation to the lot size as described in Standard #1 above:

---

---

---

---

---

---

---

---

---

---

- 2) The area and/or height of the accessory building in relation to the principal building on the lot on which the accessory building is to be placed;

Describe how the proposed size of the accessory building is not excessive in relation to the size of the principal building as described in Standard #2 above:

---

---

---

---

---

---

---

---

---

---

- 3) The location of the accessory building in relation to other buildings on adjoining lots and in relation to the principal building on the lot;

Describe how the proposed building will fit into the area as described in Standard #3 above:

---

---

---

---

---

---

---

---

4) Whether or not the accessory building will affect light and air circulation of any adjoining property; and

Describe the effect or lack of effect of light and air circulation of any adjoining property.

---

---

---

---

---

---

---

---

5) Whether the accessory building will adversely affect the view of any adjoining property.

Describe the effect the accessory building may have on the view from any adjoining property.
